New Year's Greetings.

At this, the beginning of the new year, we take this means of sending our best wishes to the people of Elba and Coffee County, and expressing to them our sincere thanks for the splendid patronage they gave us through the year just passed.

When we opened up our stock of general merchandise, some months ago, we determined to pursue the same policy in dealing with the people that had been our custom when selling hardware alone -- That was to handle only the best goods, to sell them at a fair price, and to see that every customer received full value for each dollar spent at our stores.

We are pleased to say that the result of this policy has been very gratifying to us. Day by day we have seen our trade increase, and each day has added new customers to our list, and made new friends for our house. This has gone on through the year until the total amount of business we have done has far exceeded our expectations. We are, of course, thankful to the people for this evidence of their friendship, for without it we could not have made our business the success it is.

In conclusion we are pleased to say that the new year finds us in better position to sell satisfying goods than ever before.

With larger capital, more experience, better buying facilities and the same determination to give full value for every dollar received we confidently expect our business to continue to grow, and enjoy the prosperity that we wish all our friends during the good year 1911.

Sincerely Yours,

Another Cold Wave Is Coming South.

Washington, January 8-A cold wave of marked severity that now prevails over Alaska will overspread the northwestern states Monday and Tuesday, from which region it will advance eastward and Southward over the middle west during the middle of the week and to the Atlantic and gulf states the latter part of the week, according to the weather

bureau prediction. Abnormally low temperatures will attend this cold wave in the northern Pacific states. The northern plateau and Rocky mountain regions and practically

all districts east thereof. The principal disturbance of the week will prevail during the next three days west of the Rocky mountains, cross the middle west by Wednesday or Thursday and reach the Atlantic states Thursday or Friday. The disturbance will in all probability be attended pecially in the southern states Recent disclosures in the "draw and the region west of the Rocky
